

## ST AUGUSTINE'S CATHOLIC PRIMARY SCHOOL

# Teaching and Learning Committee

At St Augustine's Catholic Primary School we have a 'Teaching and Learning Committee'. This committee meet every week to evaluate the quality of learning throughout the school. The meetings include:

- What pupils enjoy about their learning
- The different teaching styles pupils prefer and why
- How various activities completed within lessons help pupils to achieve their learning objectives
- How teachers' marking and feedback helps pupils learning to move forward
- How EBI (Even Better If) targets are monitored and evaluated throughout the school

After each meeting the committee report headlines to staff and pupils during assembly. The aim of this committee is to allow pupils to take ownership and accountability for their learning, as well as providing teachers with effective feedback for improving the quality of teaching.

## What's the impact?

- Children are invited to respond to teachers marking which demonstrates level of understanding
- Improved target setting—more challenging and child friendly to accelerate pupil progress
- Timetabled 'target time' for reviewing targets- allowing teacher and pupil to communicate effectively
- Increased creativity and enjoyment in lessons evident from pupil feedback
- More practical investigations taking place in Science
